

Installation Guidelines for Touch7 Photo ECG™

MINIMUM SYSTEM REQUIREMENTS Mac or PC | Photoshop® CC or higher

Download and double click the Touch7 Photo ECG v1.2.ccx plugin

This will automatically open up Adobe Creative Cloud and allow you to install the plugin.

If you encounter any issues with the above installation process you can also install .ccx files using ZXP Installer:

Step 1 Download and install ZXP Installer from here:
www.aescripts.com/learn/zxp-installer

Step 2 Open ZXP Installer

Step 3 Drag the **Touch7 Photo ECG v2.1.ccx** onto the UXP icon:
