

The Touch7 Neon Color System

Extended color gamut system for Neon inks/toners and ECG inks

Swatch Book System

Print and manufacture Touch7 Swatch books off your own press using neon/fluorescent inks/toners. Compatible with both digital and analogue devices (offset, flexo etc.)

Color Palettes

Automated neon color palettes for Adobe Illustrator and InDesign are used to separate your artworks in seconds

Image separation plugins

Convert your images with the click of a button using the Touch7 Color separation plugins for Adobe Photoshop

The Touch7 Neon Color System

How it works

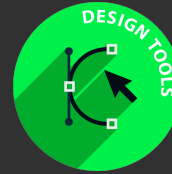

PRINT

Touch7 Swatch Books are printed out by the printer

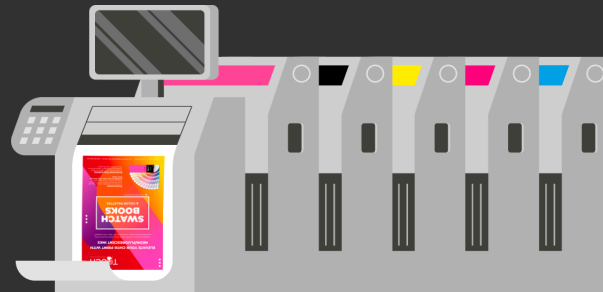

CHOOSE

Use the swatch books to select the colors you want to design with

DESIGN

Use the Touch7 Palettes and plugins to create designs

PRINT

PDFs are sent to output a proof or final print production

All print starts with design!

If designers don't know what the press can do, they can't design for it

Marketing samples

Touch7 provides ready-made marketing artworks that the printer can output on their press. The printer can show these samples to their customers to show what is achievable with 5th color, driving demand for digital embellishments

Training and Education

Touch7 has specialized in 5th color and color separation for over 20 years. We provide a comprehensive set of training and educational resources, which helps the user learn how to get the most out of designing and printing with 5th color applications.

Designing for 5th color is time consuming

If you want people to adopt 5th color, you need to make it easy, and fast!

The Pantone® neon color guides do not work on digital devices

The Touch7 systems are compatible with both digital and analogue devices

Designing for 5th color is difficult and time consuming

The Touch7 systems are extremely fast and easy to use

Designing for 5th color is trial and error, which wastes time and increases the page price

Touch7 speeds up the workflow, decreasing the cost of designing for 5th color

There are no other design products available on the market to help designers for 5th color

Touch7 provides automated color palettes and plugins for Adobe CS/CC
